NC Dual Clutch

"Convenience and Superb Braking Performance"

Features

Enhanced Safety and Reliability

The new brake provides superb reliable braking performance.

Greater Convenience

The steering clutches enable easy steering of the tractor sideways.

Ease of Operation

Gear change can be done by single press of the clutch although the tractor is in motion.

NC131

Sporty, Exciting Design

Features

Made with ABS plastic, the same material used in the manufacture of car bumpers, which is marked by its high flexibility, ruggedness and durability, the new cover gear housing adds to a distinctively stylish, beautiful design.

NC131

Enhanced Convenience with Starter Switch

Features

- The starter switch ensures a quick and easy start.
- The control unit assures constant battery charging. A battery and its base are standard.
